

# Classification des industries

Nos bases de données EXIOBASE3 que nous utilisons sont en format industrie x industrie. Elles sont constituées de 163 industries.

Afin d'avoir une meilleure idée de tous les types d'industries parmi ces 163 industries, nous avons décidé de les classifier. Pour cela, nous avons décidé d'utiliser le système de classification des industries des Nations Unies, l'International Standard Industrial Classification of All Economic Activities (ISIC). Nous utilisons la révision 4 de l'ISIC, publiée en 2008 et que vous pouvez retrouver [ici](#) pour plus de détails.

Les industries sont classifiées en sections allant de la lettre A à U dans notre cas. De plus, chaque section est constituée de divisions permettant de désagréger les industries classifiées dans chaque section.
